

The Vitality HealthyFood program with NutriSavings now includes more grocery stores

A few things to keep in mind when linking NutriSavings and your local grocery store:

- If you have not yet joined the Vitality HealthyFood® program, you can enroll for free by logging in to your Power of Vitality account and visiting the HealthyFood icon on your homepage.
- Once you have an active NutriSavings account, you will need to link your grocer's rewards information to your NutriSavings account. To do this, navigate to the NutriSavings website and select "Link My Stores" under the Stores & Groceries tab. Search for and select your local grocer and provide the required information.
- Follow your grocer's rewards details from NutriSavings to start earning two Vitality Points® for each designated healthy food item you purchase - up to 50 points each month. Foods in the NutriSavings catalog have ratings based on their nutritional value: zero being not healthy at all and 100 being very healthy. To earn points for an item, it must have a score of 85 or above.
- Vitality will post your Vitality Points to your account within 23 days of your shopping trip.

Shop healthier. Eat better. Earn points with Vitality HealthyFood!
