GENERAL PURPOSE:

Under the direction of the Development Engineering Manager, provide administrative support to the Development Section of Public Works Engineering, processing administrative details not requiring the immediate attention of the assigned supervisor. Incumbent communicates with a wide variety of City personnel, contractors, developers, outside agencies and the general public regarding the status of projects.

Work is characterized by responsible administrative duties in support of a large, technical division. Duties and responsibilities of this classification encompass department-wide support generally including but not limited to, organizing the section office, coordinating communications for the section, processing forms, records and reports, independently preparing and editing correspondence, reports and other materials, scheduling meetings and conferences, assisting with special projects, and performing other special projects as assigned. Duties and responsibilities of this position include, but are not limited to, the routing, and tracking of Public Works plans associated with private development projects, development and utility permit applications; assisting Engineering personnel in the use of KIVA; scheduling review meetings; ensuring that projects, plans, permits and records are complete with pre-established checklists.

Work is performed under limited supervision. Supervisor sets overall objectives and resources available. Incumbent and supervisor work together to develop the deadlines, projects, and work to be completed. Incumbent is responsible for work, plans and carries out the assignment, resolves most conflicts that arise, coordinates work with others, and interprets policies on own initiative in terms of established objectives. Incumbent keeps supervisor informed of progress, potentially controversial matters, or far reaching implications. Work is reviewed in terms of feasibility, compatibility with other work or effectiveness of results.
ESSENTIAL DUTIES AND RESPONSIBILITIES:

Serve as administrative assistant to the Development Engineering Manager, relieving the Manager of a variety of clerical, technical and administrative details; and organize and coordinate the office’s daily operations.

Determine submittal completeness of civil and land use applications from pre-established checklists.

Track the permit process in KIVA; schedule walk-through inspections in Outlook and KIVA, making sure all administrative items are complete; process punch lists and cover letters. Including but not limited to collecting Insurance Certificates, and the HPA Permits prior to issuing permit or setting up the pre-construction meeting.

Maintain and track bond status, financial guarantees, and insurance requirements for development projects to include the documentation required for the release and reduction of bond amounts, and notification of affected and interested parties; follow up and document in KIVA.

Maintain the records for Development Engineering in accordance with City Policy and state retention guidelines, to include computer entries in the City wide tracking system as well as hard copy files within the department.

Route and track applications, plans, legal documents and correspondence to internal departments as well as outside agencies, stakeholders and the public in accordance with established procedures.

Coordinate permit tracking within Engineering Division as well as with other departments, assist with KIVA system changes in the Engineering Division, run reports and assist engineering personnel in using the system.

Schedule Development Engineering Section’s plan review meetings with other departments, contractors, developers, applicants and other interested and affected parties ensuring that the needed information is ready, and that all agenda items are covered.

Distribute informational brochures to developer/applicants on cash and surety bonds, certificates of insurance and bills of sale for developer projects involving public utility extensions of sewer, water, street and storm drainage facilities.
Distribute information to the public, developers, and City Staff regarding the City’s engineering permit processes, procedures and submittal requirements for construction and development.

Become familiar with, follow, and actively support the vision, mission, values and behavior statements of the department and the City.

Provide administrative support to division by preparing basic written correspondence, reports and internal office memoranda regarding development and utility permits and elements of developmental projects.

Close out and finalize projects working with other City staff; engineers and inspectors, as well as outside contractors and bonding companies.

Initiate and track project fee status and payments for Development Engineering projects.

Prepare and track legal documents such as easements, quit claim deeds, and agreements, compares documents for consistency to engineering plans and legal descriptions.

Perform a variety of administrative duties related to the operation of the KIVA system within the Public Works department to include: entering permits in KIVA, informing staff of new fee codes; purging, scan and index project files; and conferring with KIVA users to determine needs.

Research and respond to public records requests and customer service inquiries.

Act as back-up for the Public Works receptionist.

Attend weekly KIVA meetings, internally and externally, and report and publish minutes.

PERIPHERAL DUTIES:

Perform related duties as assigned.
