

## DID YOU KNOW?

### Water

Your water bill includes two types of charges:

1.) The **METER ACCESS FEE** is a flat monthly rate based on your meter size. 2.) The **WATER USAGE FEE** is based on the amount of water you use measured as "consumption rate per 100 cubic feet." Most utility bills fluctuate because "fixed" rates are billed monthly and water consumption is billed bimonthly.

### Sewer

Sewers are designed to transfer sewage from your home or business through a system of pipes to the King County Wastewater Treatment Plant in Renton for disposal. The City's charge on your bill reflects the costs to maintain the City's sewer system. The King County charge is the fee the county charges the City to carry wastewater to Renton and treat it before discharging to Puget Sound. The City has no ability to negotiate fees charged by King County for treatment.

### Storm Drainage

The City operates and maintains the storm drainage system which includes roadside ditches, detention/retention ponds, creeks, Green River levees, catch basins, 300 miles of pipe systems and storm water pump stations. This system minimizes the flooding of streets and private properties and also assures the safe collection and disposal of storm water.

# ONLY RAIN DOWN THE DRAIN

Call Kent Public Works at 253-856-5600 to report incidents of pollution and for information on how to properly dispose of household waste, including chemicals and automotive fluids. More information at [KentWA.gov/NPDES](http://KentWA.gov/NPDES).

### SEWER

Commercial and multi-family sewer rates are based on water consumption.

Water consumption/100 cu. ft.	\$10.08
Minimum charge (includes first 750 cu. ft.)	\$75.58

### STORM DRAINAGE

Fees are calculated based on impervious surfaces. Call **253-856-5500** for more details.

\*\*Most water meters in the city are read bimonthly and the water usage charge is added every other month.

All utility accounts will incur a \$1 technology fee to support systems that provide convenience and efficient service delivery.

**Accounts with a backflow assembly will be billed \$116.52 per device in January.** This fee is for the costs incurred by the city to implement a backflow prevention program that includes inspection, documentation and reporting as required by the Washington State Department of Health.
