System Rain Barrel

55 Gallon Capacity

As part of the Norseman Environmental brand of products, the SYSTEM Rain Barrel can lower municipal water demands and save energy at water treatment facilities by reducing water pollution and storm water runoff. Rain water, free from chlorine and water treatment chemicals, is an excellent water source for lawns, plants and gardens.

FEATURES

- Unique shape and neutral color that blends into any garden-scape
- 208 litre / 55 gallon capacity
- Content of up to 50% recycled materials
- Mosquito mesh to keep bugs and leaf debris out
- Lid that can be screwed onto base for added safety
- Easy installation with existing downspouts
- Overflow hose that can be linked to another SYSTEM or can be directed away from the house
- Contoured, easy-to-use spigot
- Installation instructions, spigot, screws, overflow hose and clamp included
- Other colors availability
- Cover included

Earth Machine Compost Bin

80 Gallon Bin

The Earth Machine® is a durable backyard compost bin designed to compost food and yard waste, effectively diverting it from landfills. When residents are encouraged to divert organics from the waste stream and are educated about the benefits of composting, up to 50% of organic waste can be diverted from the waste stream.

Norseman works closely with communities and municipalities to implement a successful composting program. From one-day, turn-key sales events to public education programs, Norseman experts help residents learn to divert food and yard waste from landfills. Through this diversion, communities are able to reduce curbside collections and decrease tipping fees.

FEATURES

- Large capacity (80 gallon or 10 cubic feet)
- Easy snap-together assembly. Assembles in minutes.
- Durable and lightweight design
- Convenient 13" x 16.5" / 33 cm x 41.9 cm harvest door
- Twist locking lid included
- Vertical and horizontal columnar ventilation
- Manufactured with recycled material
- One-day sales events available
- Public education/workshops available
